

## About the Author

**Michael Ninness** is a product manager at Microsoft. Prior to this, he spent three years with Adobe Systems Incorporated as the LiveMotion group product manager. Before joining Adobe, he was the group product manager for the Photoshop plug-ins and imaging products at Extensis Corporation. He has spent the last 12 years as a graphic designer, instructor, author, and computer graphics guru. Michael is the conference chair for the Professional Photoshop Conference at Macworld Conference and Expo. He is a featured speaker at other events such as Internet World, Comdex, and the Photoshop and Web Design World conferences produced by Thunder Lizard Productions. He is also the author of *Photoshop 5 Web Magic* and has been a contributor to *Photoshop User* and *Design Graphics* magazines.

## About the Contributor

**John Nack** is a Photoshop product manager at Adobe Systems Incorporated. John joined the Photoshop team after serving as LiveMotion Product Manager, where he was responsible for managing the program's design and animation features. Prior to working at Adobe, John was a designer and animator at AGENCY.COM New York, where he created web sites for clients such as Gucci™, Coca-Cola™, Nike™, and British Airways™.

## About the Technical Reviewer

**Steve Kurth** is a digital graphic arts consultant, author, and trainer based in Portland, Maine. He is also the author of the *Adobe Illustrator 10 Shop Manual* and the upcoming *Hidden Secrets of Illustrator Web Graphics*, and co-author of *Digital Prepress Complete*. He has also been a technical editor for several other industry books. During the course of his work, Steve has developed and delivered customized training and solutions for an array of corporate clients including Verizon and LL Bean. He is a freelance cartoonist and illustrator who provided art for *Illustrator 9 and 10 for Dummies*. Steve is an Adobe Certified Expert in Photoshop, Acrobat PageMaker, and Illustrator.
